## Mrs Piggy's Shopping Trip

I'm Mrs Piggy and I'm off to see  
What I can get for family tea  
Come on Piglets, find your shoes  
Because there is no time to lose

*Breakfast, lunch and dinner and tea  
Help to grow a bigger me  
Breakfast, lunch and dinner and tea  
For a stronger, brighter me*

The supermarket's not too far  
We'll have a ride in Mummy's car  
And when we're there we'll get a trolley  
To push or ride in; very jolly!

*Breakfast, lunch and dinner and tea.....*

Cakes and ice cream for a treat  
But other things we have to eat  
Like meat and carrots, fruit as well  
To make us strong and keep us well

*Breakfast, lunch and dinner and tea....*

We've got the bread and there's the honey  
And now we go and pay our money  
We'll hurry home as quick as can be  
So Daddy pig can have his tea

*Breakfast, lunch and dinner and tea....*

## The Camels' School Run

Monday morning, five past eight  
The camel train is at the gate  
To take the little ones to school  
So be on time, 'cause that's the rule

*It's the camels' school run  
Climb aboard now everyone  
It's the camels' school run  
Climb aboard and have some fun*

With our lunchbox and pencil case  
We clamber on and take our place  
Singing songs and clapping hands  
And telling jokes the best we can

*It's the camels' school run...*

The camel train has lots of seats  
We pick up friends in other streets  
The camels go at just a stroll  
But really make us rock and roll

*It's the camels' school run...*

At the school we all climb down  
In the playground we run around  
When school is over, in sun or rain  
The camels will be back again

*It's the camels' school run...*

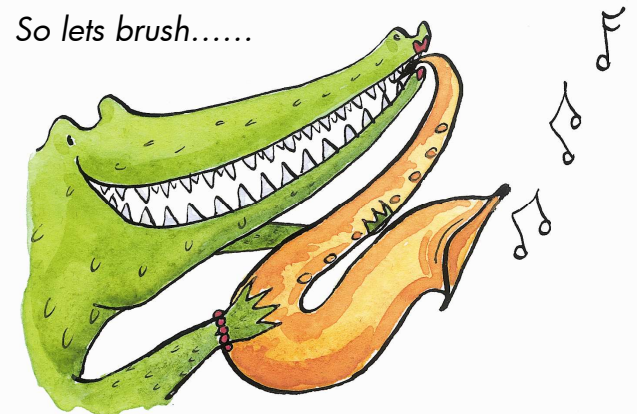

## Mama Croc's Toothbrushing Blues

Well I'm an old croc from New Orleans  
It takes me all night just to get my teeth clean  
So many gnashers in my head  
Never get the chance to go to bed  
I've got the need for some help from you  
Help me brush away these blues

*So let's brush (Brush brush brush)  
I said brush (Brush brush brush)  
So let's brush (Brush brush brush)  
I said brush (Brush brush brush)  
So now I say to you  
Got no time for these brushing blues*

Take a little toothpaste on that brush  
Brushing up and down, there's no need to rush  
All the way round from front to back  
Morning and night to fight the plaque  
So wont you help me, do  
Let's brush away these blues

*So lets brush.....*

## The Chickens' Farmyard Hoedown

Take your partners by the hand  
For the greatest dancing in the land  
They come from every field and town  
To the chickens' farmyard hoedown

Snout to snout, and hoof to hoof  
Let's dosey doe, let's raise the roof  
In this here barn dance round and round  
In the chickens' farmyard hoedown

Swing her high up to the sky  
Swing him low, that's the way to go  
Come on friends, let's all get down  
To the chicken's farmyard hoedown

Come rain or shine, you'll find us here  
Any time of day, any time of year  
It's what we do, we mess around  
In the chickens' farmyard hoedown

The moon is up, it's shining bright  
The stars are twinkling in the night  
This time of night we act the clown  
In the chickens' farmyard hoedown

All the creatures great and small  
They gather round in this here hall  
Happiness and joy abounds  
In the chickens' farmyard hoedown

Take your partners...etc

## The Monkeys' Birthday Party

*We are monkeys, we like fun  
Come to our party everyone!  
We like games where we run around  
And hide and seek when we're not found*

In the garden a paddling pool  
We splash about and play the fool  
A bouncy castle makes us glad  
Jump around; hey, not too mad!

*We are monkeys...*

We pass the parcel and try to win  
'cause then you get the prize within  
We sing some songs and nursery rhymes  
And clap our hands a lot of times

*We are monkeys...*

Balloons we have, red, blue and green  
Some are fat and some are thin  
We pat them upwards and then they drop  
But careful, sometimes they go (POP!)

*We are monkeys...*

And later on up goes a shout  
A cake with candles, blow them out!  
Then everyone can have a piece  
With jelly and ice cream, what a feast!

*We are monkeys...*

At six o'clock the party ends  
We say goodbye to all our friends  
The journey home it doesn't drag  
We find what's in our party bag!

*We are monkeys...*

## Midnight Mouse Dancing

I'm a little mouse and I live inside your house  
I'm a little mouse and I live inside your house  
When the lights are low I come out dancing  
Dancing in the hall, on the stairs and landing  
I'm a little mouse and I live inside your house

*So let's go dancing, dancing, dancing, dancing  
Let's go dancing, dancing, dancing, dancing,  
Let's go dancing!*

I'm a little mouse and I dance inside your house  
I'm a little mouse and I dance inside your house  
All my mousey friends, well they come and join me  
We dance the night away, 'til the early morning  
I'm a little mouse and I dance inside your house

*So let's go dancing...*

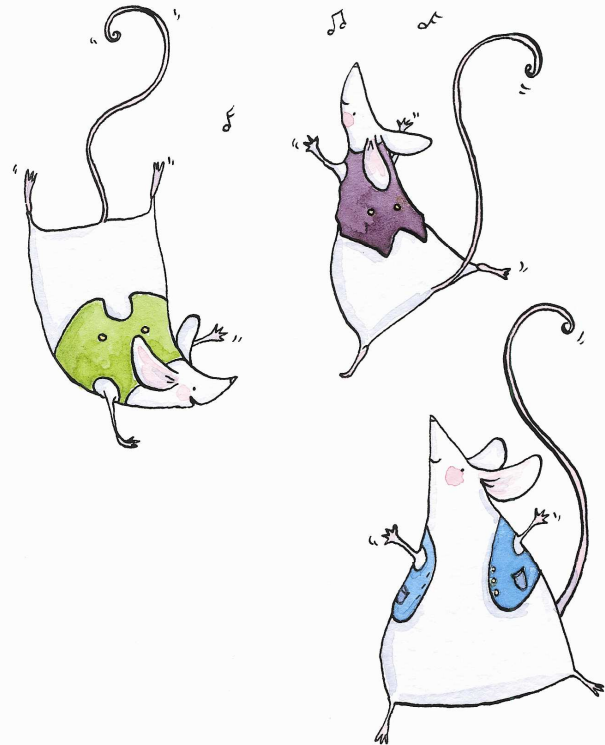

I'm a little mouse and I party in your house  
I'm a little mouse and I party in your house  
We only come and dance if we know you're sleeping  
You'll never catch us out, there's no point in peeping  
I'm a little mouse and I party in your house

*So let's go dancing...*

## Mrs Hippo's Bath Song

At the end of a busy day  
It's time to wash the dirt away  
So I jump into my bath  
For a splash and a play and a laugh

*And I rub-a-dub-dub and I scrub-a-dub-dub  
with bubbles in my tub  
And I rub-a-dub-dub and I scrub-a-dub-dub  
with bubbles in my tub*

Soapy bubbles, the water's run  
It's warm and nice and so much fun  
I love playing with my toys  
Splashing, laughing, lots of noise!

*And I rub-a-dub-dub....*

Now I'm washing myself clean  
So I'm the cleanest that I've been  
And I wash my hands and feet  
And my bathing is complete

*And I rub-a-dub-dub....*

## The Coat Song

*I need my coat when I go out  
In case there's wind or rain about  
But when the sun is warm and bright  
Without my coat I'll be alright*

*My orange coat has stripes of black  
Along my sides and down my back  
I'm Tommy Tiger, fierce and brave  
I teach the others to behave*

*I need my coat...*

*I'm Sammy Snake and I must wriggle  
To get my skin on, makes me giggle!  
I twist and turn around a lot  
But mustn't get into a knot*

*I need my coat...*

*I'm Terry Tortoise, I wear a shell  
And this protects me very well  
It's hard and heavy so you know  
It makes me very, very slow*

*I need my coat...*

*I'm Pam Polar Bear, my coat you know  
Is white for hiding in the snow  
It's also thick and very, very warm  
Against the arctic storm*

*I need my coat...*

## Jungle Fun

*Come with me as I take your hand  
And we'll walk in the sun  
In a place far away where the animals play  
You'll be friends with everyone*

*Oway owayo  
Jungle, jungle, jungle, jungle fun  
Owayo  
Jungle, jungle, jungle, jungle fun*

*Monkeys and snakes, tigers and birds  
They all play together  
They laugh and they sing, Come and join in!  
You'll want to stay forever*

*Oway owayo...*

*So wild and so free the animals roam  
And dance there in the sun  
Leopards and apes, parrots and frogs  
There's a place for everyone*

*Oway owayo...*

## Mrs Giraffe's African Lilt

*Come rest your sleepy head  
Come rest your lovely face  
Come rest your sparkling eyes  
Oh I shall keep you safe*

*I will sing a lullaby  
I will sing it, pure and sweet  
I will sing it just for you  
Oh darling, then you'll sleep*

*You will dream of a summer's morn  
You will dream of friends at play  
I will be here when you wake  
Oh at the break of day*

*Ooh....etc*

*Come rest your sleepy head...etc*

## Little Bunny's Midday Nap

Well there comes to a point in every  
bunny's day  
When I've had a good walk and I've had  
a nice play  
And it's really no surprise when I start to  
feel quite tired

So I find my favourite cuddly friend  
And I whisper night night as I put him  
into bed  
Then I climb in under the sheets and get  
ready to go to sleep.

*So sleep, Bunny, sleep  
Close your eyes, lay back your sleepy head  
And sleep, Bunny, sleep  
Cuddle up in your warm, cosy bed*

Now I'm drifting off to a dreamy place  
Where it feels all warm and it feels all safe  
And it's full of my favourite things, like  
dandelions, Mummy and swings

All the other bunnies are sleeping too  
They had a busy morning with lots of  
things to do  
But it's not as quiet as it seems, 'cause we  
play together in our dreams.

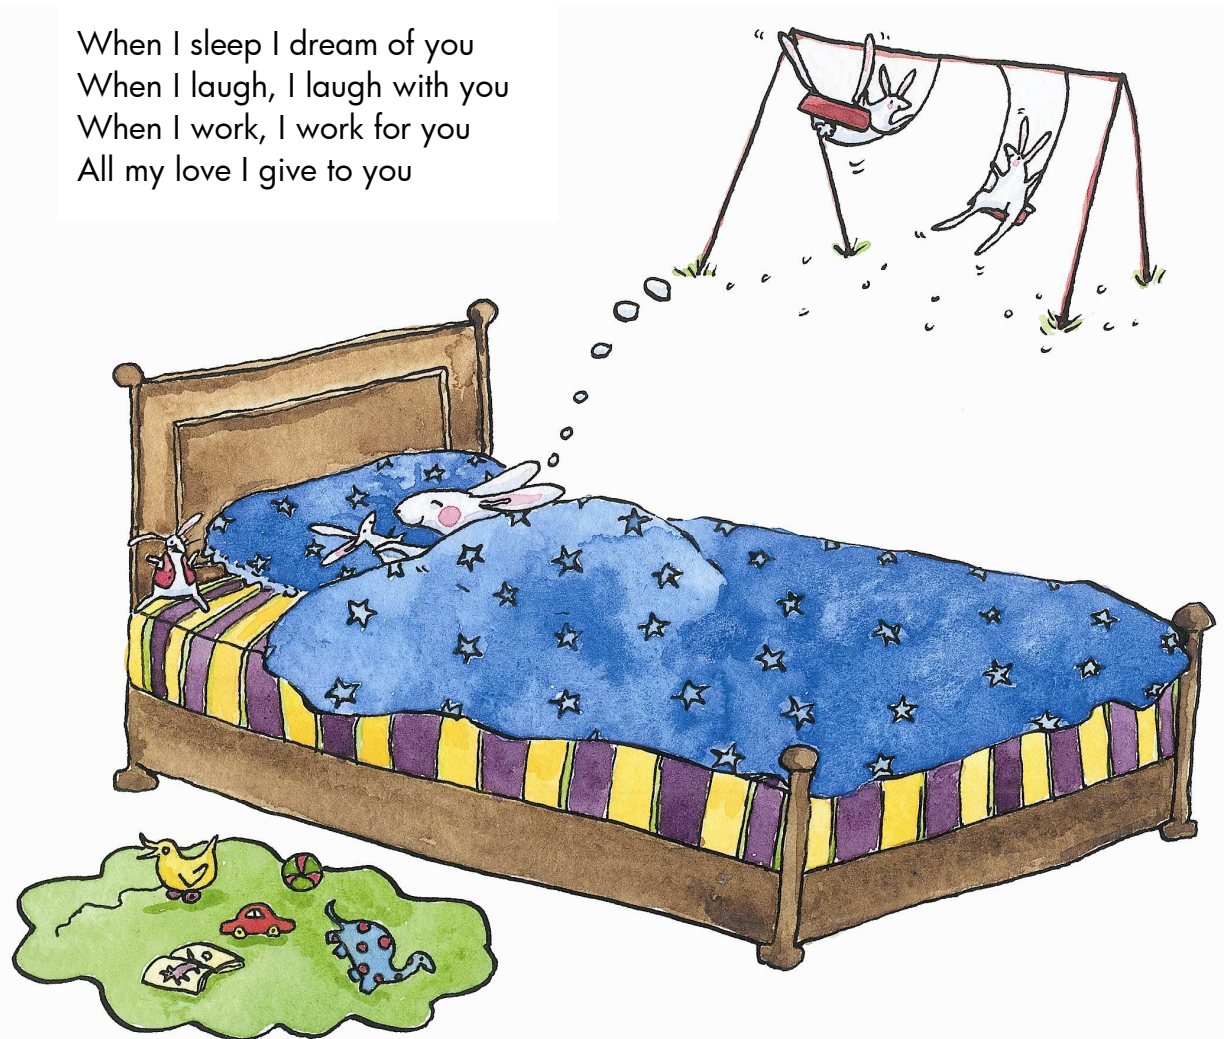

*So sleep, Bunny, sleep ...*

## The Lovebird's Promise

All I do, I do for you  
All I want, I want for you  
All I am, I am for you  
All my love I give to you

When I sleep I dream of you  
When I laugh, I laugh with you  
When I work, I work for you  
All my love I give to you

Always I'll be here for you  
Watching over all you do  
Lean on me, I'll see you through  
All my love I give to you

## The Butterfly

She's a gentle butterfly  
She floats on the breeze  
Spreading smiles and happiness  
To everyone she sees

*She flutters here, she flutters there  
As she dances on the air  
And all the others stop and stare  
There's no-one to compare*

Gracefully she wanders now  
From flower to flower  
Anyone who watches her  
Will soon be in her power

*She flutters here...*

Other creatures gaze in awe  
She's wild and she's free  
Resting where she chooses  
Any bud, bush or tree

*She flutters here...*

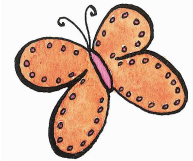

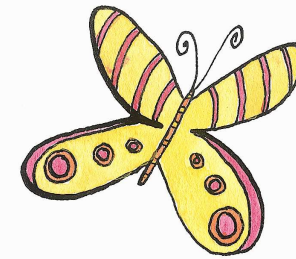

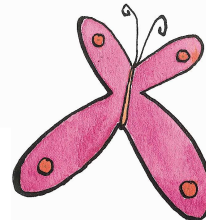

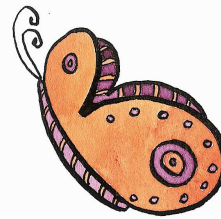

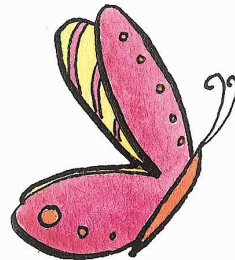

I'd love to be you, butterfly  
And soar above the ground  
Enchanting all who see me  
Spreading joy all around

*She flutters here...*

## Time to Say Goodnight

It's the end of the day and the forest is quiet  
The rabbits are safe in their burrow  
The owl is hooting a gentle lullaby  
And the fox and her cubs lay in the twilight

*It's time to say goodnight  
It's time to say goodnight  
The sun has set, the moon is high  
The stars are shining bright in the sky*

The leaves are rustling in the warm breeze  
The mice are telling bedtime stories  
The crickets are chirping a night time song  
And the ants and snails are singing along

*It's time to say goodnight...*

Warm and snug the animals sleep  
'til the sun rises on the forest  
Their dreams will be full of the very best things  
And they'll wake to enjoy whatever morning brings.

*It's time to say goodnight...*
